## Topics

**Submission deadline: December 5, 2018**

- Advanced computing architectures and new programming models
- Advanced numerical algorithms
- Applications of computation as a scientific paradigm
- Applications of computational science
- Complex systems: modeling and simulation
- Computational complexity, economics, geometry
- Computational geometry
- Computational humanities
- Computational mathematics
- Computational methods, algorithms and scientific application
- Computational sociology
- Education in computational science
- Hybrid computational methods
- Large scale scientific instruments
- Medical and biomedical computational science
- New algorithmic approaches to computational kernels and applications
- Parallel and distributed computing
- Probabilistic computation
- Problem solving environments
- Visualization and virtual reality as applied to computational science
- Web and grid based simulation and computing

Welcome to submit abstract (presentation only) or full paper (presentation and publication)!
